PRACTICALLY EXHILARATING

Meet the 2014 Mitsubishi Outlander Sport, the compact crossover that proves utility doesn't have to be dull. Its smart size makes it practical around town, yet pulse-quickening around corners. Inside, it's spacious and versatile, yet loaded with upscale appointments. And when it comes to technology, the Outlander Sport is brimming with leading-edge features. So, make sure you get plenty of vitality with your versatility in the 2014 Outlander Sport.

BUILDING INTEGRITY

One of the most advanced automotive manufacturing facilities in the world, the Manufacturing Division of Mitsubishi Motors North America, Inc. (MMNA), in Normal, Illinois, has produced more than 3,000,000 vehicles since the first car rolled off the assembly line in 1988. The facility employs nearly 1,300 people, approximately 1,000 of whom are members of the United Auto Workers union, and they currently assemble the Outlander Sport. MMNA Manufacturing and its employees are committed to building world-class vehicles in an environmentally and socially responsible manner. In fact, the plant received ISO 14001 certification, a global environmental quality process standard, in 2001.

DESIGN

STYLING THAT STARES BACK AT YOU

Don't be intimidated by Outlander Sport's sophisticated exterior. Despite its bold front grille, its shape achieves aerodynamic efficiency. With its distinctive headlights, sharp LED combination taillights, and scalloped sides, Outlander Sport's styling has received soaring acclaim.

COLOR LCD MULTI-INFORMATION DISPLAY

An easy-to-read trip computer provides you with helpful information like average speed and gas mileage, instant fuel economy, cruising range to empty, outside temperature and even maintenance reminder information.

PANORAMIC GLASS ROOF

By day, the available panoramic glass roof creates a fresh, open-air feeling throughout the interior. By night, the roof's LED lighting sets the mood for endless evening drive possibilities.

DESIGNER CABIN

The Outlander Sport's interior is an agreeable environment, indeed. High contrast meter gauges are sharp and clear. The seats have been tailored with embossed upholstery. The upper door trim and dashboard feature soft touch material with a rich pebble-texture, while subtle silver accents add that touch of class.

DESIGN

LED COMBINATION TAILLIGHTS

Outlander Sport has got your back with LED combination taillights. These high-quality units not only look sharp, they also light up faster, are more visible and last longer than traditional taillights.

SUPER-WIDE RANGE HID HEADLIGHTS

Outlander Sport is full of bright ideas, like its available Super-wide Range High Intensity Discharge Headlamps (S-HID). Using xenon gas, they project a beam that's 35% brighter than normal lights. What's more, the light they emit more closely mimics that of the sun, making for better definition and less eye fatigue.

18" ALLOY WHEELS

Standard on every Outlander Sport, these striking aluminum-alloy wheels add a sporty touch to an already attractive profile. What's more, the 225/55R18 tires provide a large contact patch with the road to help improve traction.

ACCOMMODATION

CABIN CONNECTION

With automatic climate control, heated front seats and heated side mirrors, the Outlander Sport SE certainly has your comfort covered. But inside its spacious interior you'll feel more than just comfortable, you'll feel a connection. Literally. Its FUSE Hands-Free Link System® with USB port not only lets you play music from your iPod®, it even allows you to operate your mobile phone with voice commands.[1]

E-PROCESS

TILT AND TELESCOPING STEERING WHEEL

Those who share their Outlander Sport with other drivers will appreciate the tilt and telescoping steering wheel. It makes finding that perfect driving position a quick and easy operation.

FAST-KEY PASSIVE ENTRY SYSTEM

Outlander Sport's FAST-Key (Free-hand Advanced Security Transmitter) makes vehicle entry easy. Lock or unlock the doors by simply pressing the button on either front door or the trunk lever. You can even start or stop the engine with the keys tucked away in a pocket or purse.

Information Provided by:
DEALER E-PROCESS

ACCOMMODATION

FUSE HANDS-FREE LINK SYSTEM® WITH USB PORT

Incorporating Bluetooth® 2.0 technology, FUSE allows you full use of your Bluetooth-enabled phone and lets you play music from your iPod® or other MP3 player and USB devices, hands free.[2] Along with buttons on the steering wheel and navigation screen, FUSE also utilizes advanced speech recognition technology, so you can operate selected features with voice commands. FUSE recognizes up to seven different mobile phones, syncing up with contact lists from each phone that's been paired with the system and keeping the lists private to each user.

AUTOMATIC CLIMATE CONTROL

This available comfort feature helps keep the cabin temperature, fan speed and air source to your liking, so you can keep your hands on the wheel and not on the AC controls.

60/40 SPLIT REAR SEAT

Outlander Sport gives you versatility your way. Its 60/40 split folding rear seat not only accommodates cargo and passengers alike, it features a handy lever that drops the seatbacks quickly and easily.

ADVANCE YOURSELF

The forward-looking Outlander Sport is a veritable clinic in efficient engineering. With new weight-saving materials, as well as energy-saving technologies, it achieves an EPA-estimated 31mpg highway rating, when equipped with FWD and CVT.[3] It also offers features to enhance your own efficiency, such as touch-screen navigation and voice-activated command of both your smartphone and your music. In Outlander Sport, you'll soon be a master multi-tasker.

MITSUBISHI MULTI-COMMUNICATION SYSTEM (MMCS)

Boasting a 7 in. high-definition touch-panel display, the intuitive Mitsubishi Multi-Communication System (MMCS) offers a host of advanced features, including mapping, expanded Point of Interest (POI) information and road speed limit display, ECO routing and subscription-free Real-time HD Traffic with Diamond Lane Guidance.

6.1" TOUCH PANEL DISPLAY AUDIO SYSTEM

Equipped with a 6.1 in. touch screen, this sleek system sports a high-gloss black finish and uses app-like icons for easy navigation. Features include HD Radio®, SiriusXM® Satellite Radio and a rear view camera system.[4] With the FUSE Hands-free Link System®, connected via Bluetooth®, it also offers a phone dial screen and contact list importing.

ROCKFORD FOSGATE® PREMIUM AUDIO SYSTEM

Outlander Sport's available Rockford Fosgate® 710-watt audio system powers eight premium speakers and a 10 in. dual-voice coil subwoofer. The system incorporates an advanced Digital Signal Processor (DSP) and offers the listener Punch Control® over the subwoofer, sound field control over the image and staging of the system, and the latest DTS Neural Surround® technology.[5] The system is also equipped with state-of-the-art technologies, such as Dolby® Volume, PremiDIA HD® and PremiDIA-Wide® for dynamic audio performance.

DEALER E-PROCESS

ECOLOGY

ECO Lamp Indicator
Continuously Variable Transmission (CVT)

Information Provided by:
DEALER E-PROCESS

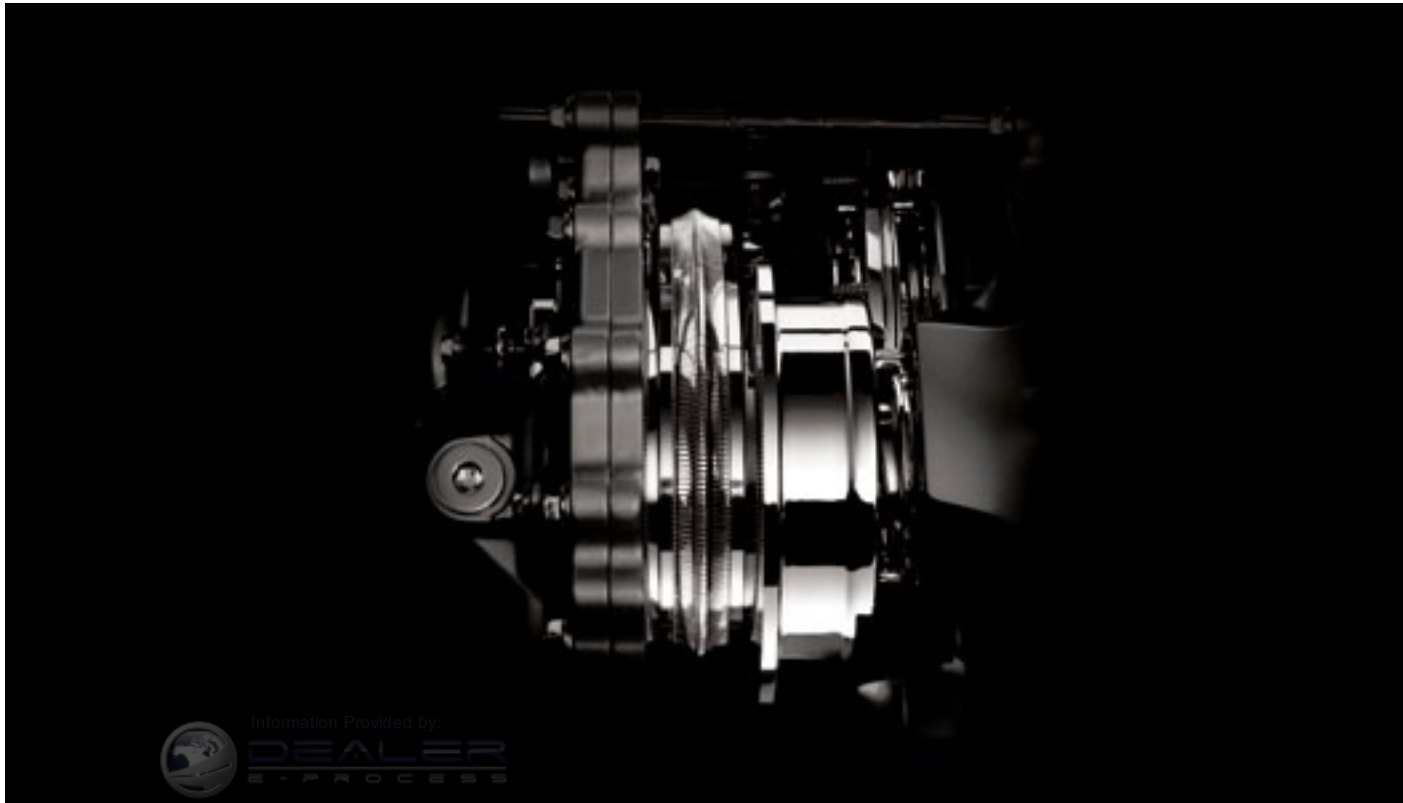
ECOLOGY

ECO LAMP INDICATOR

This helpful feature illuminates at a given vehicle speed and engine RPM range to let you know that your Outlander Sport is operating at maximum fuel efficiency. The longer you drive with the ECO lamp activated, the better your fuel economy.

CONTINUOUSLY VARIABLE TRANSMISSION (CVT)

One of the smoothest and most efficient transmissions available, a CVT operates on a pulley system, allowing infinite variability between the highest and lowest ratios. Instead of shifting gears, it adapts to changing vehicle speeds and helps keep the engine operating efficiently.



PERFORMANCE

2.0L MIVEC Engine
Paddle Shifters

Information Provided by:
DEALER E-PROCESS

2.0L MIVEC ENGINE

Powering Outlander Sport is a 2.0-liter engine that features resin coated pistons and smoother surface camshafts for reduced friction and improved fuel economy. The dual overhead cam, 16-valve engine produces 148 horsepower at 6,000 rpm and 145 lb.-ft. of torque at 4,200 rpm. As with all Mitsubishi engines, it enjoys the efficient breathing of Mitsubishi Innovative Valve-timing Electronic Control (MIVEC).

PADDLE SHIFTERS

Available with the Continuously Variable Transmission are race-inspired paddle shifters that offer real hands-on performance. Simply pull the right paddle to upshift and the left paddle to downshift. .

SAFETY

All-Wheel Control (AWC) • Rear View Camera
Seven Standard Airbags
RISE Unibody Construction
Active Stability Control and Traction Control

Information Provided by:
DEALER E-PROCESS

QUIET CONFIDENCE

Many of our most impressive advancements often go virtually unnoticed such as our active and passive safety features. The Outlander Sport is so well equipped, it earned a 2013 Top Safety Pick + award from the Insurance Institute for Highway Safety.*

ALL-WHEEL CONTROL (AWC)

Our advanced AWC combines the grip of a electronically controlled four wheel drive with the intelligence of our Active Stability and Traction Control system to regulate torque from front to rear. The result is greatly enhanced performance and traction under a variety of road conditions.

REAR VIEW CAMERA

With visibility compromised, backing up a vehicle is always a safety concern. Outlander Sport's available rear view camera provides a measure of assurance by displaying on the screen an image of the area directly behind the vehicle.

SEVEN STANDARD AIRBAGS[6]

Outlander Sport's standard Supplemental Restraint System (SRS) features seven airbags, including dual-stage front airbags with a driver's seat position sensor, driver and passenger seat-mounted side airbags, side curtain airbags and a driver's knee airbag. Outlander Sport also offers head-impact absorption roof and pillar trim, as well as a new Brake Pedal Recession Protection Structure to reduce driver leg injury in the event of a frontal collision.

* 2013 IIHS TOP SAFETY PICK

Information Provided by:
DEALER E-PROCESS

RISE UNIBODY CONSTRUCTION

Utilizing high-tensile strength steel, RISE (Reinforced Impact Safety Evolution) engineering helps provide occupant protection in the event of a collision. RISE combines energy-absorbing front and rear structures with a rigid occupant cell, along with reinforcing bars in the doors and energy-absorbing materials in the side pillars and roof rails.

ACTIVE STABILITY CONTROL AND TRACTION CONTROL

One of the most significant advancements ever developed, Active Stability Control and Traction Control helps drivers maintain control in adverse conditions and during emergency maneuvers. Sensors monitor traction and work with the anti-lock braking system to counteract slipping. Applying the brakes on specific wheels, the system helps the vehicle track in the driver's intended direction.

FOOTNOTES

6. Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always wear your seat belt, sit upright in the middle of the seat, and do not lean against the door. Always place children 12 and under in the rear seat and use appropriate child restraints. Never place a rear-facing infant restraint in the front seat. See your Owner's Manual and instructions provided with your child restraint for additional information.
7. EPA estimates are to be used as a standardized comparison with other vehicles. Your actual mileage will vary depending on how you drive and maintain your vehicle.

WARRANTY

See retailer for limited warranty and roadside assistance terms and conditions.

Powertrain	10-year/100,000-mile limited warranty
Basic	5-year/60,000-mile limited warranty
Anti-corrosion	7-year/100,000-mile limited warranty

The 10-year/100,000-mile Limited Powertrain Warranty applies only to the original owner of new, retailed 2014 models purchased from an authorized Mitsubishi dealer. Subsequent owners receive the balance of the New Vehicle Limited Warranty of 5-years/60,000-miles.

Log on to our website and browse our full lineup of new vehicles, get MSRP and customer rebate information and "build" the Mitsubishi that's right for you. The site can help you locate your nearest dealer – or even have a dealer contact you.

DEALER E-PROCESS

Mitsubishi Motors. California, USA.
At Mitsubishi, we believe not all drivers are created equal. So we build our vehicles for a different breed of driver, the fearless ones who take pride in what they drive, and refuse to drive more of the same. It's obvious to us that people who truly want distinctive styling and the latest technology see past the procession of bland imitations. We believe that every vehicle we make should stand for something. Something more than expected. And that's why we don't build Mitsubishi cars for stereotypes. We build them for you.
